 inside

① Female receives only

two holes, the anus (lol)
 and the vagina (which goes to
 their uterus, and also has five
 small coils, which that evaluate
 the males in case the individual
 has antibodies or virus sex with

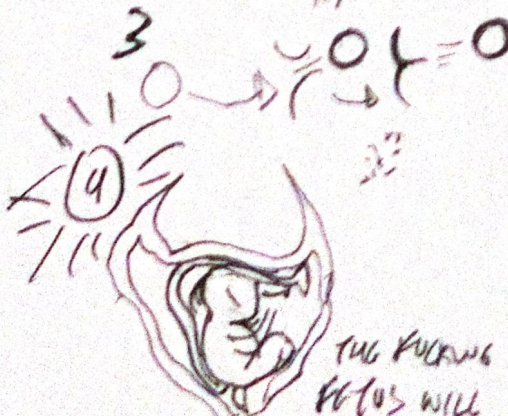

the one of opposite sex, they contain
 "balls" that, instead of residing
 sperm, has the seeds that merge with
 the sperm, fuse into one and go to
 the uterus, where it only goes to ^(from) ~~there~~ ^{there}
 (females can gestate) after they do, the
 uterus closes and the other part
 dies and is reused by their bodies
 for something else,

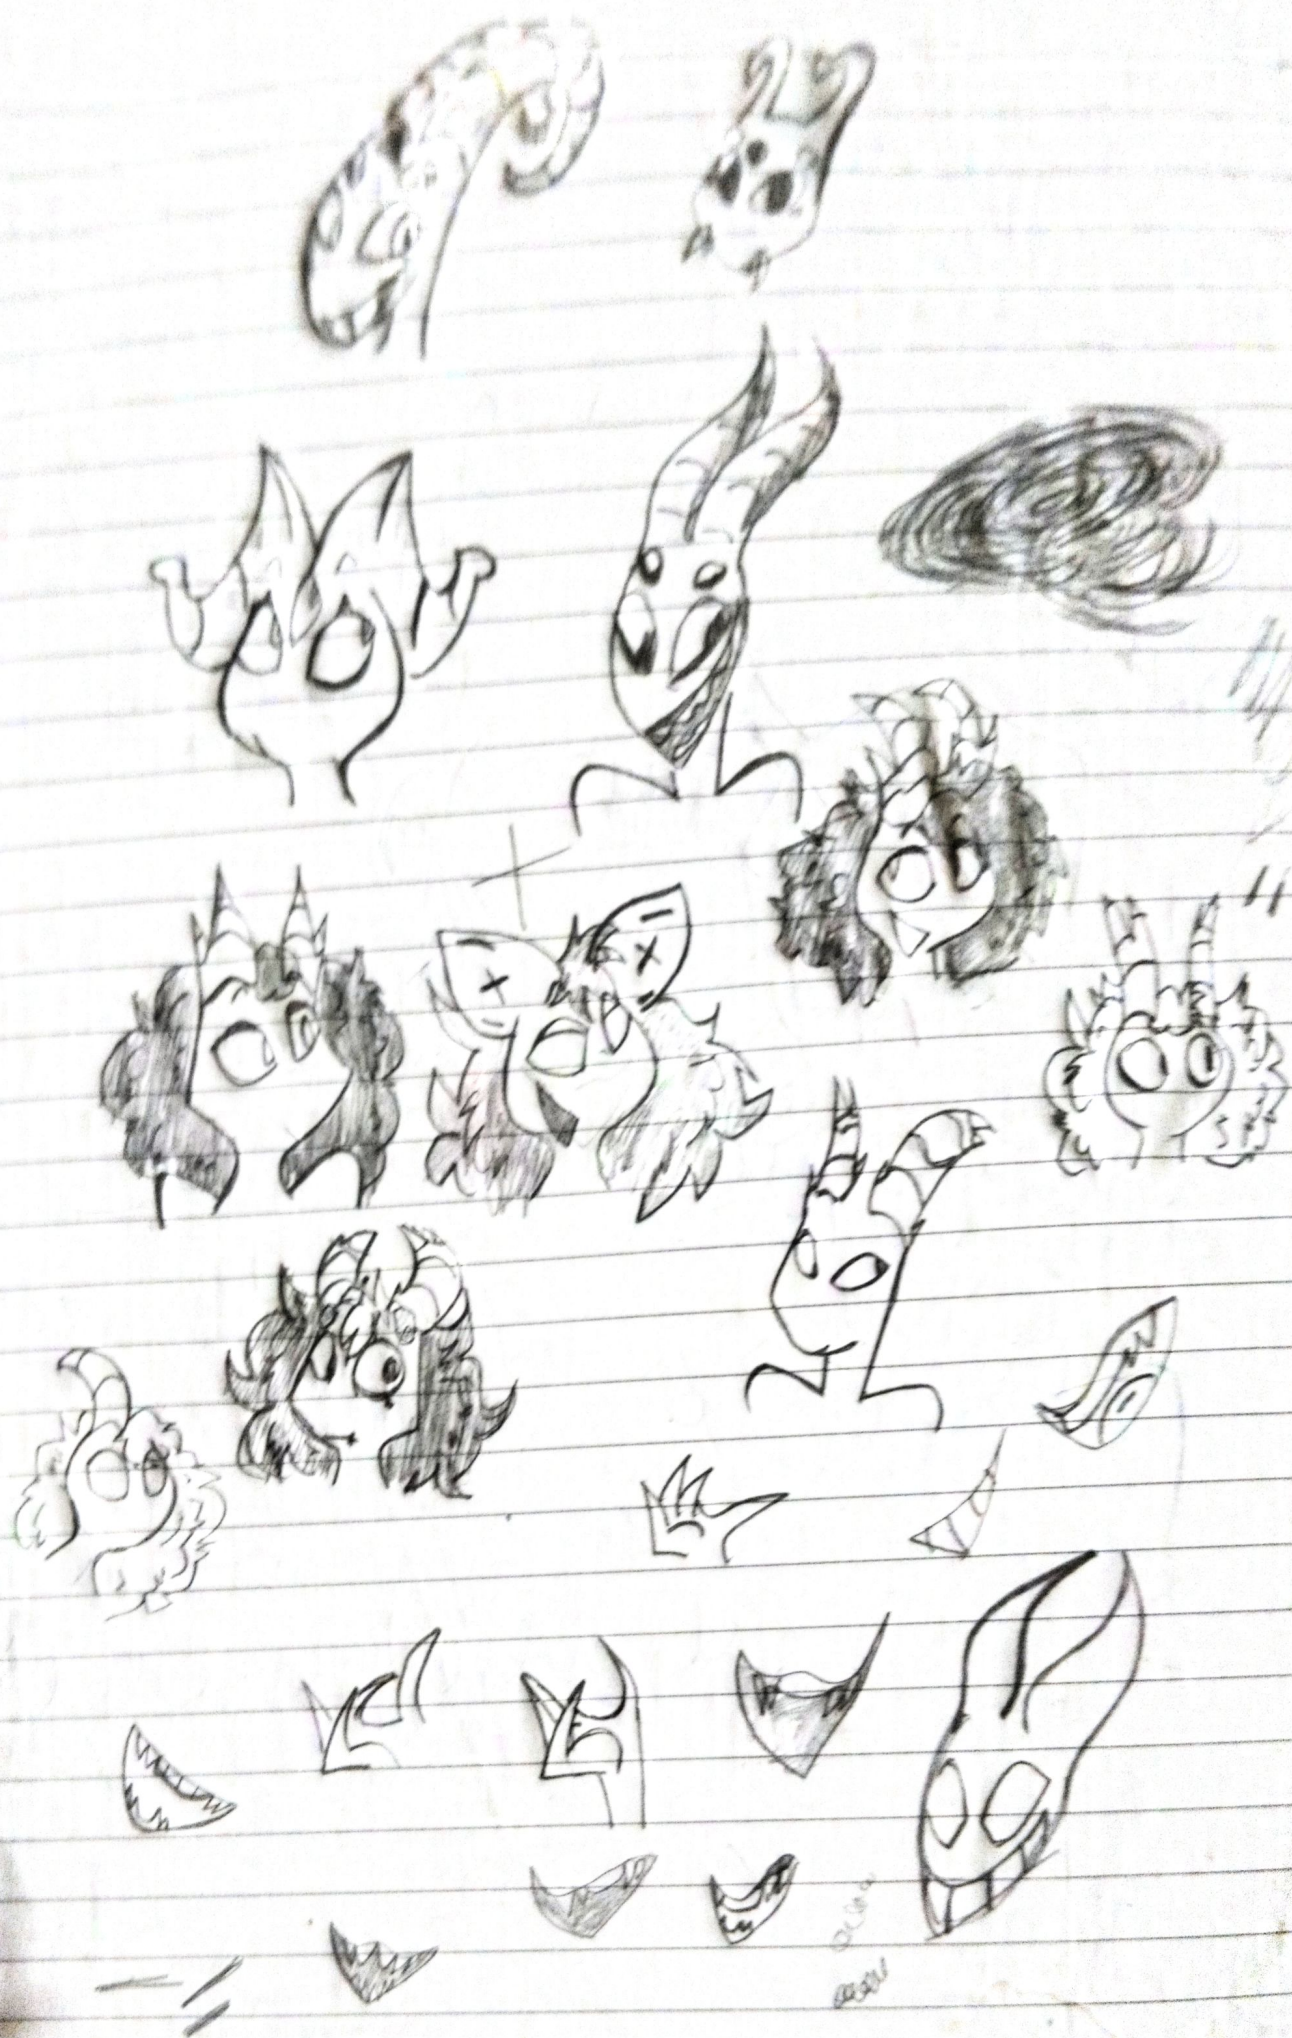

STEPS NOW!!!

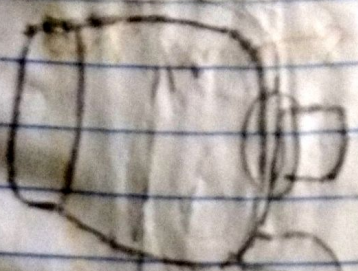

NOTE: none
